Army Corps of Engineers accepting comments about McGregor Park development plan

The U.S. Army Corps of Engineers, Fort Worth District, announced today that it is accepting comments on a draft development plan for McGregor Park at Belton Lake. The draft plan was formulated by an interdisciplinary planning team as part of a long-term effort to plan and construct improvements to the recreational facilities at the lake.

The draft development plan is available for review at the Corps' Little River Project Office, 3110 FM 2271 in Belton, Texas. The plan is also available at the Belton and Temple public libraries and the Bell County Courthouse, and it is posted on Belton Lake's website, <http://www1.swf-wc.usace.army.mil/belton/>.

The Corps previously solicited public comments and recommendations for present-day and future recreational uses and facilities at the park. Several responses were received, and those comments were considered in the drafting of the development plan.

Comments about the draft development plan will be accepted until Aug. 10, and can be mailed to U.S. Army Corps of Engineers, Belton/Stillhouse Hollow Lake Office, ATTN: Todd Spivey, 3740 FM 1670, Belton, TX 76513-9503. Comments can also be emailed to Todd.J.Spivey@swf.usace.army.mil.

For more information about the development plan, contact Todd Spivey at 254-939-2461.
